Assignment #3 Part Costing Assignment (Worth 5%)

Objective: To develop the skills of finding electronics parts and producing a project costing sheet using Microsoft Excel. Students are to save the identified data sheets for the final report.

Goals:

- 1) Determine the total cost for this project
- 2) Download the 5 data sheets required for the final report

Procedure:

- 1) Download the excel sheet assignment from blackboard under Assignment.
- 2) You're task is to fill all blue boxes. Find the information on www.digikey.ca or the identified suppliers' websites.
- 3) Price each part at single piece price breaks. ***Be mindful of currency – US \$ or CDN \$.**
- 4) Download the data sheets for the parts highlighted in yellow. There are five. *Save these somewhere safe, as it's required in the appendix of your final report later in the term.*
- 5) Fill in Quantity Available column with how many are available and the Date Accessed column with the date you accessed the information. If quantity of parts available is 0(zero), in the Notes column put the Ship Date Estimate.
- 6) Fill in Distributor Description – more detailed description of each part.
- 7) **SUBMISSION: Submit your work online through blackboard. Attach your file and select "SUBMIT".**
- 8) **This assignment is to be done outside of class time and is due by 10:00pm Monday March 16th, 2009. The assignment page will be disabled at this time. Be prompt to submit your work.**
